Dear Students and Parents:

As members of the DeRuyter Central School Community, it is important that each of you know your rights and responsibilities. Also, you must be familiar with the rules, regulations, and disciplinary procedures that have been approved by the DeRuyter Board of Education. These rules and regulations support a safe, secure, and disciplined learning environment. The Board policies and regulations ensure the fair and equitable treatment for all members of our school district population.

One of our primary obligations as a school district is to provide each of you with the very best education possible. That must be done in a safe, secure, and cooperative environment. Everyone must show respect for each other and abide by the established rules, regulations and procedures. I expect that you will do your part to ensure that you and your classmates receive the education that you deserve.

You are responsible for knowing the rules and regulations. Also, you are responsible for knowing the consequences of inappropriate behavior. Inappropriate behavior will not be tolerated, and DeRuyter Public Schools will not hesitate to fully enforce the rules and regulations and to hold students accountable for inappropriate behavior. When laws are violated, the police and court officials will be notified. Further, anyone who brings a weapon, or a "look-alike" weapon to school will automatically be suspended and may be recommended for expulsion.

This Code of Conduct is provided to you in summary form, and I urge you to immediately become familiar with this information. As we hold our commitment of providing a positive learning environment for our students, we ask for your help in making our campus as secure and nurturing as possible. **After reviewing this document with your child, please sign the acknowledgement form found on the last page of this Code and return the form to your child's school by September 8, 2017.** If you have any questions or concerns regarding the policies outlined in this Student Code of Conduct, please notify your building principal.

As always, we appreciate your assistance and we value your support. Best wishes for a great school year.

Sincerely,

Charles W. Walters
Superintendent of Schools.

Dear Students and Parents:

Welcome to the 2017-18 school year! We hope that you enjoyed your summer. We are looking forward to a successful year working together with all of you. Our goal is to provide a safe learning environment where the educational, physical and social/emotional needs of each student is fostered. With this goal in mind, DeRuyter Central School has updated our *Code of Conduct* that has been adopted by the Board of Education.

The *Code of Conduct* contains a summary of the school rules and expectations. Each member of the school community is responsible for conducting themselves in a manner consistent with the rules, regulations, and procedures contained in this *Code*. Our expectation is that all parties will do their part to make DeRuyter Central School a place where everyone feels safe, and where all students receive the education they deserve. It is the responsibility of both students and parents to be familiar with the *Code of Conduct* and the potential consequences of not abiding by school rules. When a violation of the *Code* occurs, stating that the party was unfamiliar with the rules and regulations laid out in the *Code of Conduct* will not be accepted as a reason for the violation.

We are proud of our students, staff and our community, and we know that each one of us will continue to work together to make DeRuyter Central School District a model district. It is important that all members of the school community treat one another with respect, set personal goals, work hard to reach them, and support one another in doing so. Working together to accomplish our goals will lead to a very successful school year.

Sincerely,

Dr. Sarah Stack Feinberg

Student Dismissal Precautions

The Principal in the District shall maintain lists of individuals who are authorized to obtain the release of students in attendance at the school. No student may be released in the custody of any individual who is not the parent or guardian of the student unless the individual's name appears on the student's emergency card.

Parents or guardians may submit a list of individuals authorized to obtain the release of their children from school at the time of the child's enrollment. A parent or guardian may amend, in writing, a list submitted pursuant to this procedure at any time.

Certified copies of any court order or divorce decrees provided by the custodial parent/guardian, which restrict a parent's/guardian's ability to seek the release of his/her child shall be maintained by the Principal. Individuals seeking the release from school of a student must report to the High School Office and present identification deemed satisfactory by the school Principal. The Principal/designee must check the authorized list and relevant court orders or divorce decrees before a student may be released.

The Principal/designee may release a student to an individual not appearing on the approved list only if the Principal/designee has determined that an emergency exists and the parent or guardian has been personally contacted by the Principal/designee and has approved the release.

- Students in grades K-5 should seek their principal, Mrs. Kimberly O'Brien. Students in grades 6-12 should see Dr. Sally Stack Feinberg. Of course, if one is not available, students may seek the assistance of the other principal.

CODE OF CONDUCT

MISSION STATEMENT

The DeRuyter Central School District, in partnership with parents and the community, will educate and empower all students to embrace a passion for learning while developing into respectful, productive members of society

The DeRuyter Central School District is a community of learners with responsibility to one another. The purpose of the school district is teaching and learning. We are all responsible for ensuring an environment in which teachers can teach and students can learn. As members of this educational community students, teachers, staff members, parents and the community share in the responsibility of fostering a respectful environment in which teaching and learning are paramount.

Students of the DeRuyter Central School District have the right to a free, appropriate public education. In addition, students have all other rights afforded to students under the provisions of the Federal and State Constitutions and the laws of the State of New York. Athletic and co-curricular participation is not a right but a privilege. Therefore, students may be held to certain behavioral standards in order to maintain the privilege of participation.

Students of the DeRuyter Central School District have the responsibility to attend school as prescribed by New York State Law. While in school, a student shall not act in a manner which invades the rights of others, or which causes disorder and disrupts the educational process.

To improve security at DCS, surveillance cameras may be located in common areas including hallways, stairwells, gymnasiums, parking lots, and the cafeteria. Surveillance cameras will not be placed in classrooms or areas where students and staff would have an expectation of privacy.

Family Educational Rights and Privacy Act (FERPA)

The Family Educational Rights and Privacy Act (FERPA), a Federal law, requires that DeRuyter Central School, with certain exceptions, obtain your written consent prior to the disclosure of personally identifiable information from your child's education records. However, DeRuyter Central School may disclose appropriately designated "directory information" without written consent, unless you have advised the District to the contrary in accordance with District procedures. The primary purpose of directory information is to allow the DeRuyter Central School District to include this type of information from your child's education records in certain school publications. Examples include:

- A playbill, showing your student's role in a drama production;
- The annual yearbook;
- Honor roll or other recognition lists;
- Graduation programs; and
- Sports activity sheets, such as for wrestling, showing weight and height of team members.

Directory information, which is information that is generally not considered harmful or an invasion of privacy if released, can also be disclosed to outside organizations without a parent's prior written consent. Outside organizations include, but are not limited to, companies that manufacture class rings or publish yearbooks. In addition, two federal laws require local educational agencies (LEAs) receiving assistance under the Elementary and Secondary Education Act of 1965 (ESEA) to provide military recruiters, upon request, with three directory information categories - names, addresses and telephone listings - unless parents have advised the LEA that they do not want their student's information disclosed to military recruiters without their prior written consent.

If you do not want DeRuyter Central School to disclose directory information from your child's education records without your prior written consent, you must notify the District in writing by **September 22, 2017**. DeRuyter School District has designated the following information as directory information:

-Student's name, address, telephone listing, date of birth, major field of study, dates of attendance, grade

These laws are: Section 9528 of the ESEA (20 U.S.C. 7908), as amended by the No Child Left Behind Act of 2001 (P.L. 107-110), the education bill, and 10 U.S.C. 503, as amended by section 544, the National Defense Authorization Act for Fiscal Year 2002 (P.L. 107-107), the legislation that provides funding for the Nation's armed forces.

General Student Behavioral Guidelines

Visitors to School

We really enjoy having parents and guests visit school especially on special occasions like assemblies, birthday parties, and plays. Our policy states that if you wish to visit school that you make an appointment to see your child's teacher. Unannounced visitors disrupt the flow of the classroom and teaching.

If you do not have an appointment, we respectfully request that you not "stop" in to see your child. Their days are very busy and learning is our first mission. If you would like to have lunch with your child, those arrangements can be made on an occasional basis. Please call the office to make these arrangements.

For the safety of your children, all visitors must report to the Security Office and present identification (Driver's license, or non-drivers NYS ID Card) which will be scanned on our Raptor System. Once your identification has been verified, you will be asked to sign in and will receive a visitor's pass.

Violators may be charged with criminal trespass. No student is allowed to bring small children to school, and as a general rule, no guests are allowed during the school day. Thank you for respecting our policy and procedures.

Transportation

Bus safety is a prime consideration. The drivers will enforce all rules set up for pupils' safety. Your cooperation is necessary. Remember, distraction of the bus driver may cause an accident.

Bus Rules

- Be ready to board the bus quickly and safely, when it arrives.
- Students must not enter or leave the bus, nor leave their seats, while it is in motion.
- Upon entering or exiting buses, pass in front of the bus, not behind.
- Occupy the seat assigned by driver, safely throughout the trip.
- Head or arms must not be out the window at any time.
- Swearing or other inappropriate language is not to be used.
- The use of illegal substances is forbidden. The bus is school property.
- Quarreling, fighting or rough play will not be tolerated.
- Obey the bus driver, and help to keep the bus neat, clean, and safe.
- Drivers will report discipline problems to an administrator and parent via a transportation discipline report.
- Cell phones, iPods, & MP3 players may be used on the bus, as long as they are not a distraction.
- Please remove headphones when loading and unloading the bus.

Consequences of bus misconduct

Any inappropriate acts on the bus can cause harm or injury. The following consequences are put in place as guidelines and are subject to change depending on the conduct and act. Actions that place the driver or other students in danger will result in suspension in or out of school.

1 st Offense	Warning to student and contact home
2 nd Offense	2 days of lunch detention and contact home
3 rd Offense	2 days after school detention, phone call and/or parent conference
4 th Offense	3 day bus suspension, parent conference
5 th Offense	5 day bus suspension, parent conference
6 th Offense	Principal's decision

Riding the bus is a privilege, not a right. With privileges comes responsibility and obeying the rules of the bus is vital. Students suspended from the bus will be expected to attend school, and the responsibility of getting to school falls on the parents.

The above may be increased depending on the severity of the offense.

Late Bus Procedures

On Tuesdays and Wednesdays each week there is a late bus. The purpose of this bus is for students to get extra help, work on projects, and participate in school related activities.

To take the late bus, a student needs to sign up with Mrs. Paddock in the high school office no later than 1:00 p.m. This is to allow the scheduling of the appropriate number and size of buses.

The first time a student fails to sign up for the late bus or is not with a teacher from 3:00 p.m. to 3:45 p.m. he or she will receive a warning. If the problem continues to occur they may be denied transportation.

Bus Passes

Requests for bus passes or changes must go to Mrs. Newkirk in the Elementary office before 1:00 p.m. to effectively coordinate timely messages to the homeroom teachers, bus drivers, and parties involved.

Transportation to BOCES

- 1) Students travel to BOCES only by DeRuyter bus.
- 2) No student will be permitted to drive a car to the BOCES Center during school hours without special permission for extenuating circumstances only from the parent and principal and with prior permission from BOCES. Any car permission granted will extend to the driver only, for that day(s). **NO STUDENT RIDERS WILL BE PERMITTED.**

Consequences

1st offense- Half (1/2) of ISS

2nd offense- One (1) day off ISS

Each subsequent offense will be a day of ISS and Principal decision.

Transportation to Special Events

When students leave DeRuyter on a school bus to attend a function, they will travel back to DeRuyter on that bus. As an exception, chaperones may release students only to their parents. For any other transportation arrangements, permission slips must be turned in to the office before the event, with approval by parent and administrator to follow.

Student-Driven Vehicles

Students requesting permission to drive to school must obtain a permit from the High School Office to register their vehicle and park on school grounds. Grade 12 students **only** may park in the designated 12 spots which will be awarded based on a lottery system. Applications for these permits will be distributed to Seniors **only** the first week of school. Students who drive in an unsafe manner on or around school property will lose privileges and may be reported to the authorities. All other parking spaces in the North and South lots are reserved for staff and visitors only.

NOTE: If you do not receive a parking permit, you cannot park on school property.

Hall Passes

Students are expected to have Hall Passes at all times with the exception of transition times. There are pages in the back of each student's agenda that will be used for hall passes; therefore, students should always bring their agendas to class. If students lose their agendas, they may purchase another agenda from the High School Office for \$3.00.

Academic Integrity

Honesty is assumed and expected in all academic endeavors, be it homework assignments, routine essay assignments, quizzes, tests or major research projects. Any form of cheating, be it as simple as offering or accepting homework assignments or as serious as intentional plagiarism* will NOT be tolerated. It is our intention to be sure that our students understand the seriousness of academic dishonesty prior to leaving high school and the impacts it will have on them.

Direct evidence of academic dishonesty will be addressed in the following ways:

Homework Assignments

- A single episode of receiving or providing direct assistance; failure on the assignment in question and further consequences as outlined in the Student Code of Conduct
- Continued practice; Conference with principal and parent and further consequences as outlined in the Student Code of Conduct

Quizzes, Essay Assignments, Exams, Projects, Research Papers, Etc. (For receiving or providing assistance)

- A single episode:
 - a. Automatic failure on the quiz, essay, exam, project, research paper, etc.
 - b. Parental conference at the discretion of the teacher
 - c. Further consequences as outlined in the Student Code of Conduct
- A second or continued episode:
 - a. Conference with Principal and Parent
 - b. Automatic failures in the assignments in question or may result in failure of the grading quarter course – at the discretion and agreement of both the teacher and the principal
 - c. Further consequences as outlined in the Student Code of Conduct

**** Plagiarism: The use of words or ideas of another person without adequate acknowledgement***

A teacher suspecting intentional plagiarism may follow either or both of the following procedures:

- Request cited source material from the student
- Independently research cited source material for comparative purposes

Students must present source materials that they use in preparing essays, reports, research papers, etc. Failure to present source materials will be taken as an admission of plagiarism.

Grading Policy

Homework:

At DeRuyter Central School, we believe that learning is a three way partnership among students, parents/guardians, and the school. Homework is an integral part of that partnership. We believe that homework provides opportunities for development of self-discipline, responsibility, time-management, and organizational skills. It is important that homework reinforces and complements the work students do in school. The amount of homework students receive should reflect the stage at which they are in their schooling and in their personal and academic development.

- It is expected that homework will be carefully and neatly completed by the date indicated by your teacher.
- All homework completed and handed in will be evaluated.
- Late homework assignments will be accepted, but may accrue less credit than otherwise may have been earned or no credit at all.

Incompletes:

- An Incomplete (I) is a grade given if a faculty member believes the student deserves additional time to complete a test, assignment, project, etc.
- Incompletes must be given in instances where the work is missing due to a medically excused absence. Incompletes must be satisfied within 5 weeks or the grade becomes an "F" or 50.
- Students who receive incomplete grades will not have their grades calculated for Honor Roll purposes.

On-Line Courses:

All costs incurred are the sole responsibility of the student.

Credit from an on-line course may be earned by a student enrolled at DeRuyter Central Schools only if:

- The course is not offered at DeRuyter Central School and
 - No appropriate course is available in the curriculum area
- OR
- The course will serve as a supplement to extended homebound instruction related to a health-related or disabling condition
 - The student has been expelled from the regular school setting, but educational services are to be continued.

In all cases approval for such an on-line course must be granted by the appropriate teacher, Guidance Office, and the Principal.

Students applying for permission to take an on-line course will do the following:

- Complete pre-requisites, possess a minimum GPA of 85, and provide teacher/counselor recommendations to confirm the student possesses the maturity level needed to function effectively in an on-line learning environment;
- Obtain written approval of the Principal before enrolling in an on-line course;
- Adhere to the DeRuyter Central School code of conduct to include rules of behavior and consequences for violations;

Post-Completion

- On-line courses will appear on student's transcript but will not be counted towards GPA.

Calculation of Final Grades for Students in Grades 6-12:

Ten-Week Courses- Take the averages of the 10 week marking period, multiply by four (4), add the final exam and divide by five (5).

Twenty-Week Courses- Add the average of the two marking periods, multiply by two (2), add the final exam and divide by five (5).

Forty-Week Courses- Add the averages of the four (4) marking periods, add the final exam and divide by five (5).

A passing grade is a 65 for students in grades 6-12.

Fifty (50) is the lowest grade that may be recorded on report cards for the 1st and 2nd marking periods; however, for the 1st quarter of a semester course the lowest grade given will be a 50 and the actual grade will be given for the second quarter. If a 50 is given, and it represents a lower grade, the following comment will be included on the report cards "Actual grade lower than grade indicated". The 50's for 1st and 2nd marking periods will be averaged in determining final averages. Actual student grades will be reported for all interim grades (i.e., 5, 15, 25 and 35 week grades) and for 3rd and 4th quarter grades.

Calculation of Grade Point Averages:

When calculating Cumulative Grade Point Averages (CGPA), grades for honor classes will be weighted 1.05 and advanced placement/concurrent enrollment classes will be weighted 1.10.

Weighted averages will be used when calculating Valedictorian and Salutatorian, honor rolls, National Honor Society selection, and class rank.

Adding or Dropping a Course:

Every student is required to carry 5 1/2 credits including Physical Education and no course may be dropped if it leaves a student enrolled in fewer than 5 1/2 credits. Changes to schedules must be made by the end of the first week of school.

Students who choose to drop courses after the first week of school:

- Must have valid reasons for dropping
- May not drop prior to the 5th week of the marking period (with the exception of changes made by the end of the first week of school)
- May not drop a course after the 10th week of marking period (on an individual basis, courses may be dropped at the Principal's discretion)
- A "Request for Schedule Change" form is completed properly and meets the approval of parents, teachers, principal and guidance. If a course is dropped after the first ten (10) weeks, then a "Drop" will be reflected on their report card and transcript.
- Students must follow their original schedule until they receive an approved new schedule from guidance

The DeRuyter Central School District prohibits discrimination and harassment against any student by employees or students that creates a hostile environment by conduct (with or without physical conduct) or verbal statements, intimidation or abuse. We consider a hostile environment to be created when actions or statements (including those through electronic devices) directed at a student either has or would have the effect of unreasonably and substantially interfering with a student's educational performance, opportunities, or benefits, or with the student's mental, emotional, or physical well being, or reasonably causes or would reasonably be expected to cause a student to fear for their physical safety.

The prohibition of discrimination includes, but is not limited to, threats, intimidation, or abuse based on the student's actual or perceived race, color, weight, national origin, ethnic group, religion, religious practices, disability, sexual orientation, gender (identity or expression) or sex, on school property or at school functions.

Violent student

A student under the age of 21 whom:

1. Commits an act of physical or verbal violence with a school employee or attempts to do so.

It also means any other gun, BB gun, pistol, revolver, shotgun, rifle, machine gun, disguised gun, dagger, dirk, razor, stiletto, switchblade knife, gravity knife, brass knuckles, sling shot, metal knuckle knife, box cutters, cane sword, electronic dart gun, Kung Fu star, electronic stun gun, pepper spray or other noxious spray, explosive or incendiary bomb, or other device, instrument, material or substance that can cause physical injury or death when used.

In addition, students who make threats to use weapons not in their possession, (i.e. written bomb threats) will be subject to disciplinary action.

Minimum Periods of Suspension

Students who bring a weapon to school:

NOTE: The Federal Gun-Free Schools Act of 1994 (20 USC § 8921) requires all states that receive funds under the Elementary and Secondary Education Act of 1965 to have a law that requires school districts to suspend students who bring weapons to school for a minimum of one calendar year. Section 3214(3) (d) of the Education Law has been amended to comply with the federal law. The federal law defines “weapon” somewhat narrowly. (See 18 USC § 914.)

The U.S. Department of Education, the federal agency responsible for overseeing the implementation of the Gun-Free Schools Act, has stated that local school districts may decide to broaden their definition to include other weapons as well.

Any student, other than a student with a disability, found guilty of bringing a weapon onto school property will be subject to suspension from school for at least one calendar year. Before being suspended, the student will have an opportunity for a hearing pursuant to Education Law §3214. The Superintendent has the authority to modify the one-year suspension on a case-by-case basis. In deciding whether to modify the penalty, the superintendent may consider the following:

1. The student’s age.
2. The student’s grade in school.
3. The student’s prior disciplinary record.
4. The Superintendent’s belief that other forms of discipline may be more effective.
5. Input from parents, teachers and/or others.
6. Other extenuating circumstances.

A student with a disability may be suspended only in accordance with the requirements of state and federal law.

Students who commit violent acts other than bringing a weapon to school:

Any student, other than a student with a disability, who is found to have committed a violent act, other than bringing a weapon onto school property, shall be subject to suspension from school for at least five days. If the proposed penalty is the minimum five-day suspension, the student and the student's parents will be given the same notice and opportunity for an informal conference given to all students subject to a short-term suspension. If the proposed penalty exceeds the minimum five-day suspension, the student and the student's parents will be given the same notice and opportunity for a hearing given to all students subject to a long-term suspension. The Superintendent has the authority to modify the minimum five-day suspension on a case-by-case basis. In deciding whether to modify the penalty, the superintendent may consider the same factors considered in modifying a one-year suspension for possessing a weapon.

Students who are repeatedly substantially disruptive of the educational process or repeatedly substantially interferes with the teacher's authority over the classroom:

Any student, other than a student with a disability, who repeatedly is substantially disruptive of the educational process or substantially interferes with the teacher's authority over the classroom, will be suspended from school for at least five days. For purposes of this code of conduct, "repeatedly is substantially disruptive" means engaging in conduct that results in the student being removed from the classroom by teacher(s) pursuant to Education Law §3214(3-a) and this code on four or more occasions during a semester, or three or more occasions during a trimester. If the proposed penalty is the minimum five-day suspension, the student and the student's parent will be given the same notice and opportunity for an informal conference given to all students subject to a short-term suspension. If the proposed penalty exceeds the minimum five-day suspension, the student and the student's parent will be given the same notice and opportunity for a hearing given to all students subject to a long-term suspension. The Superintendent has the authority to modify the minimum five-day suspension on a case-by-case basis. In deciding whether to modify the penalty, the Superintendent may consider the same factors considered in modifying a one-year suspension for possessing a weapon.

Permanent Suspension

Permanent suspension is reserved for extraordinary circumstances such as where a student's conduct poses a life-threatening danger to the safety and well being of other students, school personnel or any other person lawfully on school property or attending a school function.

Attendance Procedures

Student absence without prior knowledge and consent of a parent/guardian is considered truancy, an illegal and/or an unexcused absence. Truancy will be dealt with as outlined in the Code of Conduct.

Skip Days: Occasionally students get together and organize a day or part of a day off from school. The DeRuyter Central School District does not condone these activities. Students participating in such activities will be subject to sanctions for truancy as outlined in the Code of Conduct. The truancy is considered an illegal absence regardless of parent permission.

Absence from School

If a student is going to be absent from school a parent/guardian should contact the attendance clerk at 852-3400 ext. 7204. If the school does not hear from a parent/guardian an attempt will be

made to contact them to ascertain the reason for the absence. Upon returning to school, students should report directly to the Attendance Office to present an excuse and obtain a re-admission slip. A dated written excuse for absences is due the day a student returns to school. **The following are legal excuses: personal illness, death in the family, doctors or dentist's appointment, court appearance, and religious observation. College visitations, when arranged with your guidance counselors, are allowable.** Other absences are considered illegal by the State of New York and by our Board of Education.

Extra Curricular Events

In order to participate in extracurricular events after school, the student must be in attendance the entire day (8:05-2:55). If the event is on a Saturday, the student must be in attendance all day the Friday prior to the event. If the event is over a break, the student must be in attendance the last day of school before the break in order to participate at all. Any student who leaves school due to illness is not eligible for participation that day. Any student who is tardy or absent for part of the day due to a medical or dental appointment must provide documentation signed by a parent or guardian stating the time and date of the appointment. **See "Tardiness to School" below.**

Absence from BOCES Occupational Education Classes

1. Students attending occupational education courses at BOCES are subject to all BOCES rules and procedures regarding attendance and behavior, as well as the rules of DeRuyter Central School.
2. Students who miss the BOCES bus will report to the Principal's Office.
3. If a pattern of illegal absenteeism develops, the student may be dropped from the BOCES program

BOCES students returning to the building MUST sign in at the Secondary (Main) Office.

Tardiness to School

All students are expected to be in school and in class, on time, all days that school is in session. Any student not in his/her assigned homeroom or first period class at the start of the scheduled school day is considered either absent or tardy. If a student arrives at school after 1st period has begun, he/she should report immediately to the Security office to sign in. A written excuse is required explaining why the student is late. If the student does not have an excuse explaining his/her tardiness, he/she must submit a note from his/her parents/guardians the following day explaining the reason for his/her tardiness. The tardiness or absence will be treated as illegal until a note is received documenting a legal excuse.

Students are expected to be in school the entire day from 8:00 AM – 2:55 PM. Once a student has been tardy or dismissed early 3 times during a ten (10) week marking period, a student may not participate in athletic activities (including practices and games) or extra-curricular activities on that day unless they bring a doctor's note to the nurse. If there are no practices, games, events or activities the day the student reaches the third tardy or early dismissal, the student may not participate the next time said activities are held.

If a student is not currently participating in extra-curricular activities or athletics, the student will serve 2 days (90 minutes) of after school detention on the following Tuesday and Wednesday or whenever the after school bus run occurs.

Once the suspension and/or detention has been earned and served, the student's attendance cycle will be reset and the process started above will begin again. Chronic offenders will be referred to the principal for possible additional disciplinary action.

Tardiness to Class

A student entering class after the bell rings is late. For every 3 times a student is late to class or absent from school without a legal excuse the following disciplinary actions will be taken:

1st Offense -	Warning by Principal and law and school policy explained
2nd Offense -	One (1) detention at lunch time and parent notification
3rd Offense -	Two (2) detentions at lunch and parent notification
4th Offense -	Five (5) detentions at lunch and parent notification
5th Offense -	Half (1/2) day ISS and parent notification
6th Offense -	Principal's decision

Leaving the Building

Students (i.e., all students, including students 18 years of age or older) who need to be excused from school are to bring a written excuse to the Attendance Office before the beginning of the school day. The excuse must state the reason and time being excused and must be signed by their parent/guardian. The dismissal time will be noted on the absentee sheet. Students will be dismissed from school for legal reasons: medical appointments, court appearances, and legal matters. Arrangements must be made with the Guidance Counselor, parents, employer, and the Principal for school release for employment. BOCES releases need home school, BOCES, and parental approval.

In case of emergency, the nurse may excuse students if the Principals are not available.

1. Students (i.e., all students, including students 18 years of age or older) who wish to leave the building must first sign out in the Security Office. They must show a written excuse from home or from the Health Office before leaving. Returning to school after an appointment, students must sign in at the Security Office and get a pass to return to class.
2. Students may not leave the school property without approval by the Principals, or School Nurse.
3. Leaving the school building or property without authorization is a serious offense and may result in suspension.
4. Senior National Honor Society members in grades 12 have the privilege of leaving school to go to Sal's for lunch Thursday and Friday. Students in grade 11 have the privilege of leaving school to go to Sal's for lunch Thursday. The following rules apply:
 - a. Sign out in the Security Office.
 - b. Travel on foot. No vehicle may be used.
 - c. If a student returns late
 - i. The first time they lose the privilege for one month
 - ii. A second time they lose the privilege for the rest of the school year
 - d. Food is to be eaten at Sal's.

Cafeteria Procedures

An enjoyable lunchtime is an important part of your day. It is a time for you to relax, talk with your friends, and refuel for your afternoon. Follow these simple steps and you will have an enjoyable time with your classmates.

- All food is to be consumed in the cafeteria. Exceptions will be made with permission from a teacher.
- Breakfast is from 7:40 until the bell at 8:00. Students who come to the cafeteria are expected to remain until 8:00 unless they have a pre-signed pass from a teacher.
- All students should enter the kitchen through the entry off the hall to purchase any food.
- During 6-12 lunch students are allowed to mingle and are not required to seek permission to move around. However, they may not leave the cafeteria without permission and are expected to be seated when socializing or requested.
- Students may be assigned specific seats at staff's discretion. They are not to move without permission.
- Students should be encouraged to return trays, etc. as soon as they are finished eating – this avoids overload at the dishwasher and long lines disposing of trash, and also minimizes silverware and dishes lost in the trash bin.
- General rules of school conduct prevail. Students observed throwing food or trash will be sent to lunch detention and/or receive consequences at the discretion of the principal.
- Make sure your silverware and dishes get returned to the dish room and not thrown away.

Student Dress Code

All students are expected to give proper attention to personal cleanliness and to dress appropriately for school and school functions. **These functions include school, physical education classes, concerts and field trips. This is especially important when at functions outside the school.** Your dress needs to be appropriate for the function you are attending. At these times you are a representative of your community and school, and the impression you make reflects on all.

Students and their parents have the primary responsibility for acceptable student dress, grooming, and appearance. Teachers and all other district personnel should exemplify and reinforce acceptable student dress and help students develop an understanding of appropriate appearance in the school setting. The Board of Education shall comply with provisions of State Education Law and Commissioner Rulings dealing with student dress.

Appropriate Use of Computers

It is the intent of the DeRuyter Central School Board of Education to make Internet access available to students to further educational goals and objectives by granting students the opportunity to utilize vast information resources and collaborate with other students, educators, professionals and experts throughout the world.

However, access to the Internet is a privilege, not a right. Students using the Internet are expected to conduct themselves in a responsible manner and are required to comply with the standards of behavior contained in the student handbook, board policies and discipline code.

The following conduct is not permitted by students using the Internet services:

1. Sending, displaying or distributing offensive messages, materials or pictures.
2. Using obscene language.
3. Harassing, insulting and/or attacking others. This also includes conversations, e-mail, instant messages, and postings at home that are brought into the school. Cyber-bullying will not be tolerated in school. It is disruptive to the education of students.
4. Damaging computers, computer systems or computer networks. This includes creating or willfully disseminating computer viruses.
5. Adjusting, changing or viewing computer system configurations or settings in any way.
6. Violating copyright laws.
7. Using another's password.
8. Trespassing into another's folder, work or files.
9. Intentionally wasting limited resources.
10. Downloading files from the Internet (either to the student's H:\ drive on the server or to a workstation's hard drive), installing or running software, unless specifically instructed to do so by a DeRuyter Central School faculty or staff member.
11. Employing the network for commercial purposes.
12. Sending, displaying and distributing messages, materials or pictures containing adult material or material that threatens or intimidates a person or group of people on the basis of their sex, race, color, religion or national origin.
13. Removing/moving, unplugging, altering, or adding equipment or software to the computers or network without the approval of the network administrator. This includes wireless equipment.
14. Connecting personal technology equipment or media, such as, but not limited to, laptops, flash drives, CD-ROMS, etc., to the computers or network without prior approval from the classroom teacher or network administrator. Any personal technology equipment or media must go through a thorough scanning process to prevent the potential spread of viruses or damaging applications.

The Internet contains essentially unregulated sources of information and communication. Furthermore, some material accessible via the Internet may contain items, which are illegal, defamatory, inaccurate, or potentially offensive to some people. While it is the District's position to make Internet access available only to further educational goals and objectives, students may find ways to access other material as well. As school officials have no control over the information available through the Internet, the District cannot be responsible for restricting, monitoring or controlling the communications of the individuals utilizing these services. Ultimately, parents and

guardians of minors are responsible for setting and conveying standards that their children should follow when using these information sources.

While storage areas of the school computer network may be treated like school lockers, users should not expect their files stored on District servers or computers to be private in nature. Network administrators and school authorities may review files and communications to maintain system integrity to ensure that users are using the system responsibly. Student use of the Internet, sites visited, time on the site, and location of the computer within the school is recorded and monitored. In order to access the Internet, permission from an adult will be sought by the student. Adults in the building will be observant of the sites students are visiting. Each time a student logs on to a district computer, an acceptance of responsibility statement will appear. Students are responsible for their conduct.

Consequences for Violation of Computer Usage:

1. Violations may result in suspension and/or revocation of student access to the District's computer system as determined in accordance with appropriate due process procedures.
2. Additional disciplinary action may be determined at the building level in accordance with existing practices and procedures regarding inappropriate language or behavior, as well as federal, state and local law.
3. When applicable, law enforcement agencies may be involved.

Office Computers – No student Use

The computers used by office staff containing student and staff data, are restricted from student use (i.e. nurse, main office, guidance office, attendance office).

Sexual Harassment of Students

The Board of Education affirms its commitment to non-discrimination and recognizes its responsibility to provide for all District students an environment that is free of sexual harassment and intimidation. Sexual harassment is a violation of law and stands in direct opposition to District policy. Therefore, the Board prohibits and condemns all forms of sexual harassment by employees, school volunteers, students, and non-employees such as contractors and vendors which occur on school grounds and at all school-sponsored events, programs and activities including those that take place at locations off school premises. Generally, sexual harassment is defined as unwelcome sexual advances, requests for sexual favors and other verbal or physical conduct or communication of a sexual nature when:

- a) Submission to or rejection of such sexually harassing conduct and/or communication by a student affects decisions regarding any aspect of the student's education, including participation in school-sponsored activities;
- b) Conditions exist within the school environment that allow or foster obscene pictures, lewd jokes, sexual advances, requests for sexual favors or other harassing activities of a sexual nature; and
- c) Such conduct and/or communication has the purpose or effect of substantially or unreasonably interfering with a student's academic performance or participation in an educational or extracurricular activity, or creating an intimidating, hostile or offensive learning environment; and/or effectively bars the student's access to an educational opportunity or benefit.

The Board acknowledges that in determining whether sexual harassment has occurred the totality of the circumstances, expectations, and relationships should be evaluated including, but not limited to, the ages of the harasser and the victim; the number of individuals involved; and the type, frequency and duration of the conduct. The Board recognizes that sexual harassment can originate from a person of either sex against a person of the opposite or same sex, and from a third party such as a school visitor, volunteer, or vendor, or any other individual associated with the School District. Sexual harassment may occur from student-to-student, from staff-to-student, from student-to-staff, as well as staff-to-staff.

In order for the Board to enforce this policy, and to take corrective measures as may be necessary, it is essential that any student who believes he/she has been a victim of sexual harassment in the school environment, as well as any other person who is aware of and/or who has knowledge of or witnesses any possible occurrence of sexual harassment, immediately report such alleged harassment; such report shall be directed to or forwarded to the District's designated complaint officer(s) through informal and/or formal complaint procedures as developed by the District. Such complaints are recommended to be in writing, although verbal complaints of alleged sexual harassment will also be promptly investigated in accordance with the terms of this policy. In the event

that the complaint officer is the alleged offender, the report will be directed to the next level of supervisory authority.

Upon receipt of an informal/formal complaint, the District will conduct a thorough investigation of the charges. To the extent possible, within legal constraints, all complaints will be treated as confidentially and privately as possible. However, disclosure may be necessary to complete a thorough investigation of the charges, and any disclosure will be provided on a "need to know" basis.

Based upon the results of the investigation, if the District determines that an employee and/or student has violated the terms of this policy and/or accompanying regulations, immediate corrective action will be taken as warranted. Should the offending individual be a student, appropriate disciplinary measures will be applied, up to and including suspension, in accordance with District policy and regulation, the Student Code of Conduct, and applicable laws and/or regulations. Should the offending individual be a school employee, appropriate disciplinary measures will be applied, up to and including termination of the offender's employment, in accordance with legal guidelines, District policy and regulation, and the applicable collective bargaining agreement(s). Third parties (such as school volunteers, vendors, etc.) who are found to have violated this policy and/or accompanying regulations will be subject to appropriate sanctions as warranted and in compliance with law.

The Board prohibits any retaliatory behavior directed against complainants, victims, witnesses, and/or any other individuals who participated in the investigation of a complaint of sexual harassment. Follow-up inquiries shall be made to ensure that harassment has not resumed and that all those involved in the investigation of the sexual harassment complaint have not suffered retaliation.

Regulations will be developed for reporting, investigating and remedying allegations of sexual harassment. An appeal procedure will also be provided to address any unresolved complaints and/or unsatisfactory prior determinations by the applicable complaint officer(s).

Such regulations will be developed in accordance with federal and state law as well as any applicable collective bargaining agreement(s).

The Superintendent/designee(s) will affirmatively discuss the topic of sexual harassment with all employees and students, express the District's condemnation of such conduct, and explain the sanctions for such harassment. Appropriate training and/or "awareness" programs will be established for staff and students to help ensure knowledge of and familiarity with the issues pertaining to sexual harassment in the schools, and to disseminate preventative measures to help reduce such incidents of prohibited conduct. Furthermore, special training will be provided for designated supervisors and managerial employees, as may be necessary, for training in the investigation of sexual harassment complaints.

A copy of this policy and its accompanying regulations will be available upon request and may be posted at various locations in each school building. The District's policy and regulations on sexual harassment will be published in appropriate school publications such as teacher/employee handbooks, student handbooks, and/or school calendars.

Tobacco Free School Policy

Rationale: The School Board recognizes its responsibility to promote the health, welfare and safety of students, staff and others on school property. The health hazards of tobacco use have been well documented. This policy is established to:

- reflect and emphasize the hazards of tobacco use;
- be consistent with state and federal laws;
- protect the health and safety of all students, staff and visitors;
- supplement the prevention curriculum taught in the classroom; and
- set a non-tobacco use example by adults

To support and model a healthy, pro-active tobacco-free environment for everyone the School Board establishes the following policy:

Tobacco Use Prohibited: No person shall use, sell or distribute a tobacco product at any time, anywhere on school grounds, in any vehicles used to transport children or school personnel, in any vehicle (public or private) while on school grounds, or at any school sponsored events, on or off campus. Possession of tobacco products and paraphernalia, as well as tobacco promotional items is prohibited by students at all times.

Field Trips

The Board of Education recognizes that field trips are an educationally sound and important ingredient in the instructional program of the schools. **All overnight field trips need to be approved by the BOE before December 1st. Field trips that are supplemented by DCS will be open to all eligible students.**

A field trip is any journey by a group of students away from the school premises, under the supervision of a teacher, which is an integral part of an approved course of study and conducted for the purpose of affording a first-hand educational experience not available in the classroom. Pertinent information for each field trip, including the date, hours, and destination, will be sent home at least one week prior to the field trip. Parent permission slips will not be necessary for field trips that take place during the normal school day.

*All rules of the Code of Conduct apply during a field trip. These include, but are not limited to, bus rules, behavioral expectations, dress codes, and attendance.

Returning Equipment

It is the student's responsibility to turn in all materials and equipment borrowed from the school in a timely manner. Students who violate this procedure run the risk of further consequences. The school will send a bill to replace the item.

Promotion Policy for Grades 6-8

Middle School Promotion Practices

The promotion practices at the middle school level are based on an evaluation of the total needs of the individual student. At times it may be necessary for a student to repeat a grade or coursework in order for students to establish a strong foundation in each course/grade to move on to the next level of work. Having a child repeat a grade is a serious decision and must be based on sound evidence. The following guidelines are used when considering retaining students:

- If a student fails one core course (ELA, math, science, social studies, language other than English) the student will pass the grade but it will be recommended that he/she attend summer school.
- If a student fails two or more core courses summer school will be required and the student will need to pass at least one course.
- If a student fails three courses a student will be required to attend summer school and pass two courses.
- If a student fails four or more courses the student may not be promoted to the next grade level.

It is the practice of DCS that a targeted plan and instructional support will be provided to students who are in danger of failing in order to close the learning gap. The plan will also address the social and emotional needs of the student.

Promotion Policy for Grades 9-12

In order for promotion to take place, students in grades 9-12 must be in good academic standing.

A grade of 65 or better is required to receive a passing grade and course credit toward graduation. Any student who fails a class will be encouraged to retake the course in summer school.

Outlined below are the criteria for promotion to that grade level:

Grade 9 – Satisfactory completion of eighth grade course work, and /or faculty recommendation and approval of Principal.

Grade 10- Satisfactory completion of 5 units of instruction of which the student must have 1 unit each of English and Social Studies.

Grade 11 – Satisfactory completion of 11 units of instruction of which the student must have 2 units each of English and Social Studies and 1 unit each of Mathematics and Science.

Grade 12 – Satisfactory completion of 16 units of which the student must have 3 units each of English and Social Studies and 2 units each of Mathematics and Science.

Note: For special circumstances these criteria may be modified with the concurrence of Guidance and Principal.

Selection of Valedictorian and Salutatorian

Criteria listed below will be used to determine the valedictorian and salutatorian of the senior class of the DeRuyter Central School District.

1. The Valedictorian of DCS will be the student with the highest cumulative grade point average at the end of 7.5 semesters (third quarter of the senior year). The CGPA will be calculated using all credit bearing courses. Advanced Placement and Concurrent College Courses (e.g., TC3) will be weighted 1.1 and Honors Courses will be weighted 1.05.
2. The Salutatorian of DCS will be the student with the second highest cumulative grade point average at the end of 7.5 semesters (third quarter of senior year).
3. An eligible student must attend the DeRuyter Central School District for a minimum of three (3) full academic years, prior to graduation, from grades 9 through 12.
4. Student must be enrolled as a full-time student at the time of graduation.
5. Only the average of grades earned in the DeRuyter Central School District through the third quarter of the senior year will be used to select the final candidate. (Course credits earned in other high schools, in summer schools other than those conducted by DeRuyter Central

School District, and post high school college credits will not be used in determining the final selection of a valedictorian or salutatorian.)

6. Eligibility will not be restricted in any way by virtue of the type of courses undertaken by the students.
7. The valedictorian and salutatorian will be afforded the opportunity to speak at commencement. This does not eliminate other students as determined by the school administration from speaking at commencement, i.e., senior class president, president of student association, etc.

Permissible Penalties

Violations of the Student Discipline Code usually obtain a warning; followed by lunch detention; followed by PM detention; followed by suspension depending on the severity of the misconduct; including: class disruption, name calling, swearing, cafeteria misconduct, rough housing, bus misconduct, cheating, and homework problems. Endangerment, assault, harassment, truancy, blatant insubordination, or abusiveness to student/staff may obtain in school or out of school suspension of 1 - 5 days on the first offense.

Depending upon the nature of the violation, it is the intention of the Board of Education that student discipline be progressive, (i.e., a student's first violation should merit a lighter penalty than subsequent violations). It is also the Board's desire that an employee or agent take into account all other relevant factors in determining an appropriate penalty.

Initiation of Student Discipline Proceedings

Any teacher, administrator, Board Member, parent or other person may report a violation of the Student Disciplinary Code to the building Principals. The Principals shall then make such investigation of the charges, as he/she deems appropriate, and take whatever actions deemed necessary.

This policy and the Board's Rules and Regulations for the Maintenance of Public Order on School Property shall be publicized and explained to all students, and provided in writing to all parents on an annual basis.

Procedures

The amount of due process a student is entitled to receive before a penalty is imposed depends on the penalty being imposed. In all cases, regardless of the penalty imposed, the school personnel authorized to impose the penalty must inform the student of the alleged misconduct and must investigate, to the extent necessary, the facts surrounding the alleged misconduct. All students will have an opportunity to present their version of the facts to the school personnel imposing the disciplinary penalty in connection with the imposition of the penalty.

Students who are to be given penalties other than an oral warning, written warning or written notification to their parents are entitled to additional rights before the penalty is imposed. These additional rights are explained below.

Detention

Teachers, Principals and/or the Superintendent may use after school detention as a penalty for student misconduct in situations where removal from the classroom or suspension would be inappropriate. Parents will be notified that after school detention has been assigned prior to a student attending. Detention will be scheduled on Tuesdays and Wednesdays, with transportation home.

Suspension from Transportation

If a student does not conduct himself/herself properly on a bus, the bus driver is expected to bring such misconduct to the building Principal's attention. Students who become a serious disciplinary problem may have their riding privileges suspended by the building Principal or the Superintendent or their designees. In such cases, the student's parent will become responsible for seeing that his or her child gets to and from school safely. Should the suspension from transportation amount to a suspension from attendance; the district will make appropriate arrangements to provide for the student's education.

A student subjected to a suspension from transportation is not entitled to a full hearing pursuant to Education Law §3214. However, the student and the student's parent will be provided with a reasonable opportunity for an informal conference with the building Principal or the Principal's

designee to discuss the conduct and the penalty involved.

Suspension from Athletic Participation, Extra Curricular Activities and Other Privileges

A student subjected to a suspension from athletic participation, extra-curricular activities or other privileges is not entitled to a full hearing pursuant to Education Law §3214. However, the student and the student's parent will be provided with a reasonable opportunity for an informal conference with the district official imposing the suspension to discuss the conduct and the penalty involved.

In-School Suspension (ISS)

The Board recognizes the school must balance the need of students to attend school and the need for order in the classroom to establish an environment conducive to learning. As such, the Board authorizes building Principal and the Superintendent to place students who would otherwise be suspended from school as the result of a code of conduct violation in "in-school suspension."

A student subjected to an in-school suspension is not entitled to a full hearing pursuant to Education Law §3214. However, the student and the student's parent will be provided with a reasonable opportunity for an informal conference with the district official imposing the in-school suspension to discuss the conduct and the penalty involved.

Teacher Disciplinary Removal of Disruptive Students

A student's behavior can affect a teacher's ability to teach and can make it difficult for other students in the classroom to learn. In most instances the classroom teacher can control a student's behavior and maintain or restore control over the classroom by using good classroom management techniques. These techniques may include practices that involve the teacher directing a student to briefly leave the classroom to give the student an opportunity to regain his or her composure and self-control in an alternative setting. Such practices may include, but are not limited to: (1) short-term "time out" in an elementary classroom or in an administrator's office; (2) sending a student into the hallway briefly; (3) sending a student to the Principal's office for the remainder of the class time only; or (4) sending a student to a guidance counselor or other district staff member for counseling. Time-honored classroom management techniques such as these do not constitute disciplinary removals for purposes of this code.

On occasion, a student's behavior may become disruptive. For purposes of this Code of Conduct, a disruptive student is a student who is substantially disruptive of the educational process or substantially interferes with the teacher's authority over the classroom. A substantial disruption of the educational process or substantial interference with a teacher's authority occurs when a student demonstrates a persistent unwillingness to comply with the teacher's instructions or repeatedly violates the teacher's classroom behavior rules.

A classroom teacher may remove a disruptive student from class for up to three days. The removal from class applies to the class of the removing teacher only.

If the disruptive student does not pose a danger or ongoing threat of disruption to the academic process, the teacher must provide the student with an explanation for why he or she is being removed and an opportunity to explain his or her version of the relevant events before the student is removed. Only after the informal discussion may a teacher remove a student from class.

If the student poses a danger or ongoing threat of disruption, the teacher may order the student to be removed immediately. The teacher must, however, explain to the student why he or she was removed from the classroom and give the student a chance to present his or her version of the relevant events within 24-hours.

The teacher must complete a discipline referral form and meet with the Principal or his or her designee as soon as possible, but no later than the end of the school day, to explain the

circumstances of the removal and to present the discipline referral form. If the Principal or designee is not available by the end of the same school day, the teacher must leave the form with the secretary and meet with the Principal or designee prior to the beginning of classes on the next school day.

Within 24-hours, if the student is assigned to ISS, the Principal or another district administrator designated by the Principal must notify the student's parents by phone, that the student has been removed from class and why. The administrator must also inform the parent that he or she has the right, upon request, to meet informally with the Principal or the Principal's designee and the teacher to discuss the reasons for the removal.

When a student is assigned to Out-of-School Suspension (OSS), the Principal or another district administrator designated by the Principal, must notify the parent/guardian within 24 hours in writing, that the student has been removed from class and why. The notice must also inform the parent that he or she has the right, upon request, to meet informally with the Principal or the Principal's designee and the teacher to discuss the reasons for the removal.

The written notice must be provided by personal delivery, express mail delivery, or some other means that is reasonably calculated to assure receipt of the notice within 24 hours of the student's removal at the last known address for the parents. Where possible, notice should also be provided by telephone if the school has been provided with a telephone number(s) for the purpose of contacting parents.

If, at the informal meeting, the student denies the charges, the teacher must explain why the student was removed and give the student's parents a chance to present the student's version of the relevant events. The informal meeting must be held within 48 hours of the student's removal. The timing of the informal meeting may be extended by mutual agreement of the parent and Principal.

The Principal or the Principal's designee may overturn the removal of the student from class if the Principal finds any one of the following:

1. The charges against the student are not supported by substantial evidence.
2. The student's removal is otherwise in violation of law, including the district's code of conduct.
3. The conduct warrants suspension from school pursuant to Education Law §3214 and a suspension will be imposed.

The Principal or his or her designee may overturn a removal at any point between receiving the referral form issued by the teacher and the close of business on the day following the 48-hour period for the informal conference, if a conference is requested. No student removed from the classroom by the classroom teacher will be permitted to return to the classroom until the Principal makes a final determination, or the period of removal expires, whichever is less.

Any disruptive student removed from the classroom by the classroom teacher shall be offered continued educational programming and activities until he or she is permitted to return to the classroom.

Removal of a student with a disability, under certain circumstances, may constitute a change in the student's placement. Accordingly, no teacher may remove a student with a disability from his or her class until he or she has verified with the Principal or the Chairperson of the Committee on Special Education that the removal will not violate the student's rights under state or federal law or regulation.

Discipline of Students with Disabilities

The board recognizes that it may be necessary to suspend, remove or otherwise discipline students with disabilities to address disruptive or problem behavior. The board also recognizes that students with disabilities have certain procedural protections whenever school authorities intend to impose discipline upon them. The board is committed to ensuring that the procedures followed for suspending, removing or otherwise disciplining students with disabilities are consistent with the procedural safeguards required by applicable laws and regulations.

Suspensions or Removals of Students with Disabilities

The District Superintendent of schools or a building Principal may order the placement of a student with a disability into an IAES, another setting or suspension for a period not to exceed five consecutive school days and not to exceed the amount of time a non-disabled student would be subject to suspension for the same behavior.

The Superintendent may order additional suspensions of not more than 10 consecutive school days in the same school year for separate incidents of misconduct, as long as those removals do not constitute a change of placement.

Generally, disciplinary actions will be in accordance with the procedures of the *Student Code of Conduct* for all students with disabilities; however, for suspensions or removals up to ten (10) school days in a school year that do not constitute a disciplinary change in placement, students with disabilities must be provided with alternative instruction or services on the same basis as non-disabled students of the same age.

If suspension or removal from the current educational placement constitutes a disciplinary change in placement because it is for more than ten (10) consecutive school days or constitutes a pattern, a manifestation determination must be made. The District determines on a case-by-case basis whether a pattern of removals constitutes a change of placement. This determination is subject to review through due process and judicial proceedings.

Manifestation Determinations

A review of the relationship between the student's disability and the behavior subject to disciplinary action to determine if the conduct is a manifestation of the disability must be made by a manifestation team immediately, if possible, but in no case later than ten (10) school days after a decision is made:

- a) By the Superintendent to change the placement to an interim alternative educational setting (IAES);
- b) By an Impartial Hearing Officer (IHO) to place the student in an IAES; or
- c) By the Board, District Superintendent, Superintendent or Building Principal to impose a suspension that constitutes a disciplinary change of placement.

The manifestation team will include a representative of the District knowledgeable about the student and the interpretation of information about child behavior, the parent and relevant members of the CSE. The parent must receive written notice prior to the meeting to ensure that the parent has an opportunity to attend.

The manifestation team will review all relevant information in the student's file including the student's individualized education program (IEP), any teacher observations, and any relevant information provided by the parents to determine if: the conduct in question was caused by or had a direct and substantial relationship to the student's disability; or the conduct in question was the direct result of

the District's failure to implement the IEP. If the team determines the conduct in question was the direct result of failure to implement the IEP, the District must take immediate steps to remedy those deficiencies.

Finding of Manifestation

If it is determined, as a result of this review, that the student's behavior is a manifestation of his/her disability the CSE will conduct a functional behavioral assessment, if one has not yet been conducted, and implement or modify a behavioral intervention plan.

Functional behavioral assessment (FBA) means the process of determining why the student engages in behaviors that impede learning and how the student's behavior relates to the environment.

Behavioral intervention plan (BIP) means a plan that is based on the results of a functional behavioral assessment and, at a minimum, includes a description of the problem behavior, global and specific hypotheses as to why the problem behavior occurs and intervention strategies that include positive behavioral supports and services to address the behavior.

Unless the change in placement was due to behavior involving serious bodily injury, weapons,-drugs or controlled substances, the student must be returned to the placement from which the student was removed unless the parent and the District agree to a change of placement as part of the modification of the behavioral intervention plan.

No Finding of Manifestation

If it is determined that the student's behavior is not a manifestation of his/her disability, the relevant disciplinary procedures applicable to students without disabilities may be applied to the student in the same manner and for the same duration for which they would be applied to students without disabilities, subject to the right of the parent/person in parental relation to request a hearing objecting to the manifestation determination and the District's obligation to provide a free, appropriate public education to such student.

Provision of Services Regardless of the Manifestation Determination

Regardless of the manifestation determination, students with a disability shall be provided the services necessary for them to continue to participate in the general education curriculum and progress toward meeting the goals set out in their IEP. They must also receive, as appropriate, a functional behavioral assessment, behavioral intervention services and modifications designed to address the behavior violation so it does not recur:

- a) For subsequent suspensions or removals for ten (10) consecutive school days or less that in the aggregate total more than ten (10) school days in a school year but do not constitute a disciplinary change of placement school personnel, in consultation with at least one (1) of the student's teachers, will determine the extent to which services are needed;
- b) For suspensions or other disciplinary removals in excess of ten (10) school days in a school year which do constitute a disciplinary change in placement the IAES and services will be determined by the CSE.

Interim Alternative Educational Setting (IAES)

Students with disabilities who have been suspended or removed from their current placement for more than ten (10) school days may be placed in an IAES which is a temporary educational setting other than the student's current placement at the time the behavior precipitating the IAES placement occurred.

Additionally, an Impartial Hearing Officer in an expedited due process hearing may order a change in placement of a student with a disability to an appropriate IAES for up to forty-five (45) school days if the Hearing Officer determines that maintaining the current placement is substantially likely to result in injury to the students or others.

There are three (3) specific instances when a student with a disability may be placed in an IAES for up to forty-five (45) school days without regard to a manifestation determination:

- a) Where the student carries or possesses a weapon to or at school, on school premises, or to or at a school function under the jurisdiction of the District; or
- b) Where a student knowingly possesses or uses drugs or sells or solicits the sale of a controlled substance while at school, on school premises, or at a school function under the jurisdiction of the District; or
- c) Where a student has inflicted serious bodily injury upon another person while at school, on school premises, or at a school function under the jurisdiction of the District. Serious bodily harm has been defined in law to refer to one (1) of the following:
 1. Substantial risk of death;
 2. Extreme physical pain; or
 3. Protracted and obvious disfigurement or protracted loss or impairment of the function of a bodily member, organ or mental faculty.

A school function shall mean a school-sponsored or school-authorized extracurricular event or activity regardless of where such event or activity takes place, including any event or activity that may take place in another state.

School personnel may consider any unique circumstances on a case-by-case basis when determining whether to order a change in placement for a student with a disability who violates a code of student conduct.

In all cases, the student placed in an IAES shall:

- a) Continue to receive educational services so as to enable the student to continue to participate in the general education curriculum, although in another setting, and to progress towards the goals set out in the student's IEP, and
- b) Receive, as appropriate, a functional behavioral assessment and behavioral intervention services and modifications that are designed to address the behavior violation so that it does not recur.

The period of suspension or removal may not exceed the amount of time a non-disabled student would be suspended for the same behavior.

Suspension from BOCES

The BOCES Principal may suspend School District students from BOCES classes for a period not to exceed five (5) school days when student behavior warrants such action.

In-School Suspension

In-school suspension will be used as a lesser discipline to avoid an out-of-school suspension. The student shall be considered present for attendance purposes. The program is used to keep each student current with his/her class work while attempting to reinforce acceptable behavior, attitudes and personal interaction.

BOCES Activities

BOCES activities, such as field trips and other activities outside the building itself, are considered an extension of the school program. Therefore, an infraction handled at BOCES is to be considered as an act within the School District itself.

A student who is ineligible to attend a District school on a given day may also be ineligible to attend BOCES classes. The decision rests with the Superintendent or his/her designee.

CODE OF STUDENT CONDUCT FOR ATHLETIC/EXTRA CURRICULAR PARTICIPATION

Participants in DeRuyter Central School sports and other extra-curricular activities become very special representatives for our school and community. Choosing to be a member of any group representing DCS is a privilege and creates valuable opportunities. It means accepting responsibilities and standards of conduct expected of our participating students. Beginning on his/her first day of participation, all participants are expected to follow the *Code of Student Conduct*, academic eligibility, and the expectations set forth in this document.

I. Acknowledgement Form

In order for a student to participate in athletics and other extra-curricular activities, the parent/guardian and student must sign the Acknowledgement Form and return it to the coach/advisor. Parents, your signature indicates that you have read and understand how your child is expected to behave and the consequences of not doing so. A student may not participate without a signed Acknowledgement Form.

II. School Attendance

In order to participate in extracurricular events after school, the student must be in attendance the entire day (8:05am-2:55pm). If the event is on a Saturday, the student must be in attendance all day the Friday prior to the event. If the event is over a break, the student must be in attendance the last day of school before the break in order to participate at all.

Students are expected to be in school the entire day from 8:00 AM – 2:55 PM. If there are no practices, games, events or activities the day the student reaches the third tardy or early dismissal, the student may not participate the next time said activities are held.

If a student is not currently participating in extra-curricular activities or athletics, the student will serve 2 days (90 minutes) of after school detention on the following Tuesday and Wednesday or whenever the after school bus run occurs.

Once the suspension and/or detention has been earned and served, the student's attendance cycle will be reset and the process started above will begin again. Chronic offenders will be referred to the principal for possible additional disciplinary action.

College visitations, when arranged with your guidance counselors, are allowable as defined by NYS Education Department), the student will be allowed to participate subject to approval by the Athletic Director or an administrator.
